

## SAMARITAN FOUNDATION PASSES MILESTONE

Robin Dozier Otten, president of the board of the Samaritan Counseling Center Foundation, was proud to announce at the beginning of 2006 that the Foundation has now topped \$1 million in assets. This growth means that each year the Foundation will be able to support the work of the Center with a contribution of at least \$50,000, generated by earnings from the Foundation's investments. While the growth in this endowment was significantly enhanced by our recent capital campaign, it is also the result of individual and corporate donations, especially including a major 5-year sustainability grant from PNM Resources Foundation. The Foundation continues to receive tax-deductible contributions to this permanent endowment, and is particularly interested in talking with prospective donors about planned gifts through estates. Supporters of the Center's work can know that such gifts will ensure lasting benefit for the many children, adults, and families the Center will serve in the years to come.
